

DARKSTEW HOLLOW

BY:
OWEN MANLEY,
KYLE WALBRING,
JOSEPH COATS

FUNCTIONAL REQUIREMENTS IMPLEMENTED

- Should be able to offer single player.
- Player should be able to interact with the character using keyboard/mouse or a controller.
- Game should allow certain UI elements such as a health bar, minimap, a hotbar, etc (partially implemented).

FUNCTIONAL REQUIREMENTS IN PROGRESS

- Player should be able mine nodes and find artifacts in levels to receive the ability to rebuild back in Ironhaven.
- Player should have the ability to upgrade equipment back in Ironhaven once requirements are met.
- Game should allow progress to be saved.

NON-FUNCTIONAL REQUIREMENTS IMPLEMENTED

- Game should have a tutorial in the beginning to teach players the game.

NON-FUNCTIONAL REQUIREMENTS IN PROGRESS

- The game should be able to perform on low-end pcs.
- Should be compatible with Windows.
- Game should be able to run on a higher frame rate average (60).
- Game should have achievements in-game.
- Game should have a system where they can only hold a certain amount of a material in their inventories to prevent exceeding progress in their present state.

INSPIRED WORKS

Other video games such as:

- Stardew Valley
- Hollow Knight
- Realm of The Mad God

STARDEW VALLEY

Inspirations:

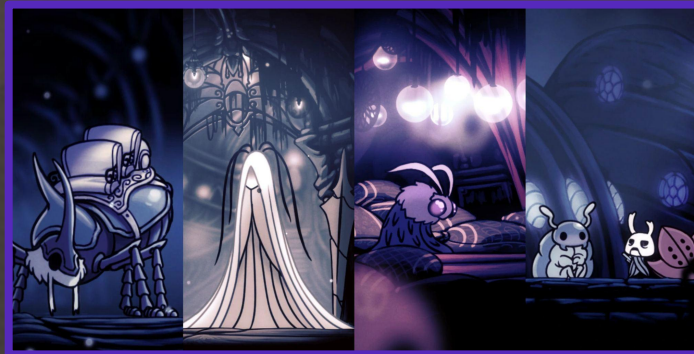

- Resource gathering/artifact gathering mechanics.
- Gameplay loop.

HOLLOW KNIGHT

Inspirations:

- Saving NPCs from danger.
- Allowing the ability for NPCs to assist player when saved.

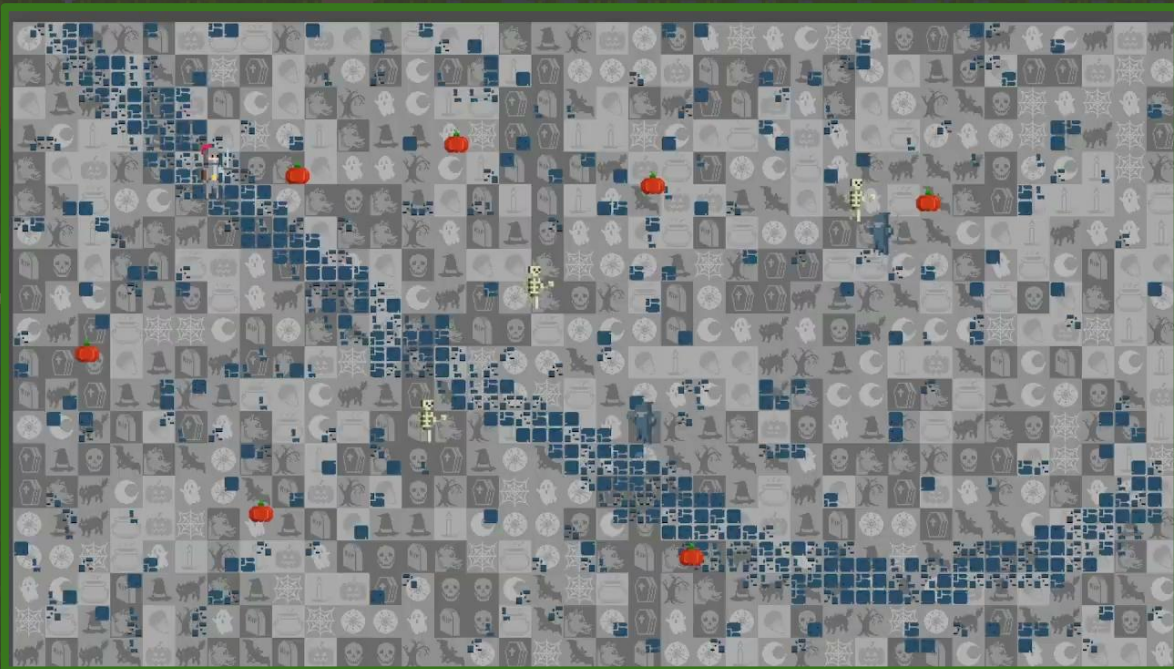

REALM OF THE MAD GOD

Inspirations:

- Art style.
- Top-down perspective.
- Different ways to encounter enemies.

PREVIOUS DEMO

CURRENT DEMO

NEW ACCOMPLISHMENTS

Level Design:

- The mines exist and can be traveled through randomly.
- Complete rework and revamp of assets.
- Tilemaps used.

Enemy AI & Player Controls:

- The enemies can “see” the player and move towards them in order to attack.
- Player can take multiple points of damage.
- Player can currently sprint, attack with their sword, or mine with their pickaxe.
- Added controller support for gameplay.

NEW CHALLENGES

Godot & Github:

- We had a file corrupt.
- Occasional problems with Github.
- *Understanding* another's files.
- Stylization experiments.
